Dear Justice Department:

This e-mail is to add my voice to the settlement of the Microsoft case before you. The public and consumer interest has been very well served, and the time to end this costly and damaging litigation has come. I do not want the special interests to defeat the public interest in this case. The proposed settlement offers a reasonable compromise that will enhance the ability of seniors and all Americans to access the InterNet and use innovative software products to make our computer experience easier and more enjoyable.
